

MAILLARD®

ECONO-FLO

Gravity - Carton Flow

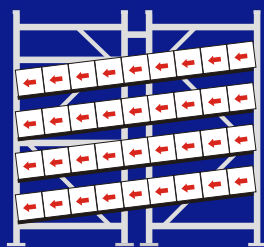

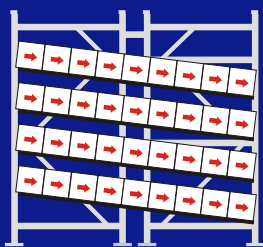

Totes and boxes up to 40 lbs.

Our Lowest Cost Carton Flow and Storage Solution

RETAIL DISPLAYS • HEALTH & BEAUTY • FOOD & BEVERAGE • ORDER PICKING • WORKSTATIONS • LEAN MANUFACTURING

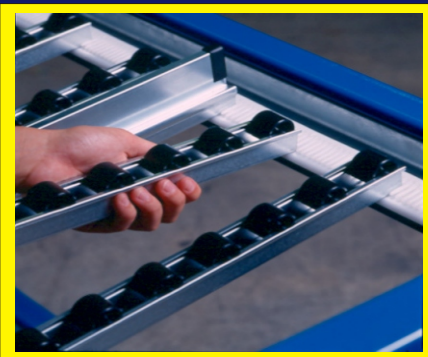

Gravity Flow Systems

- Lower labor costs
- Increase your SKU facings / better inventory control
- Rails can be retrofitted into existing systems
- Automatic FIFO (First-In, First Out) operation
- Increased throughput, less product damage
- Less floor space required

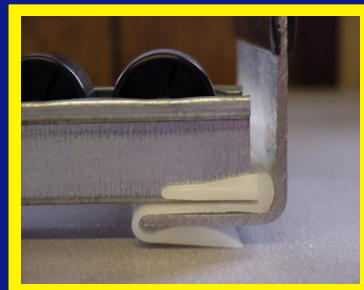

Roller Rails

- High quality plastic wheels on steel axles
- Axles crimped in position on 22 gauge galvanized steel rail
- Available on 1 5/16 (ECF-33) and 1 7/8 (ECF-50) centers
- 3 pound wheel capacity

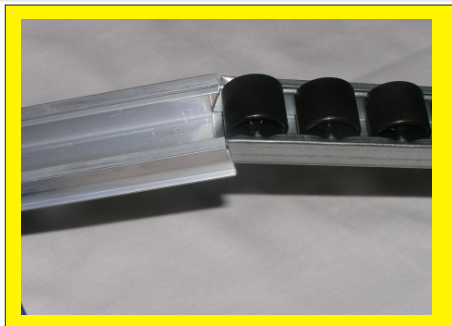

- Unlimited horizontal adjustment
- Adapt to any change in carton handling requirements
- No tools required
- Easily retrofits existing rack systems

Adjust-A-Track System

Accessories

- Roll-formed steel guide rails for lane definition
- Works with Adjust-A-Track System
- BACKBONE aluminum extrusion stiffens rail to double working capacity

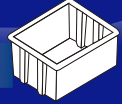

MALLARD[®]

RACKTRAK

Gravity - Carton Flow

Totes and boxes up to 40 lbs.

Drop-In Carton Flow System for Pallet Racking

RETAIL DISPLAYS • HEALTH & BEAUTY • FOOD & BEVERAGE • ORDER PICKING • WORKSTATIONS • LEAN MANUFACTURING

Easy Installation

- Racktrak lane assemblies available in custom rail spacing configurations to meet your needs.
- Lane assemblies drop into existing pallet rack structure for easy installation.
- Adjustable end-stop allows for just the right fit between step beams or over-hanging the beam.
- Self-Tracking, even for light loads

FLEXIBILITY

Products

To Ensure

Your Success... **MALLARD[®]**
