

HEAVY DUTY

Gravity - Pallet Flow

Pallets up to 4000 lbs

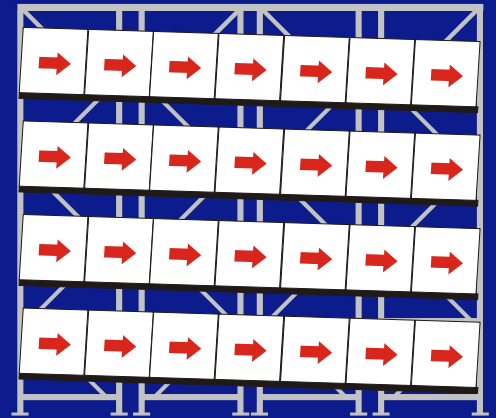

Skatewheel and Narrow Steel Roller

DISTRIBUTION CENTERS • WAREHOUSING • AUTOMOTIVE • COLD STORAGE • HEAVY MANUFACTURING

Gravity Flow Systems

Advantages of High Density Storage

- Lower labor costs and space saving
- Increased SKU organization and facing
- First-In, First-Out operation
- Increased throughput
- Less product damage
- Ergonomic design
- Less traffic congestion
- Reduced equipment and energy costs

Steel Skatewheel

Versatile

Economical

Ball Bearing

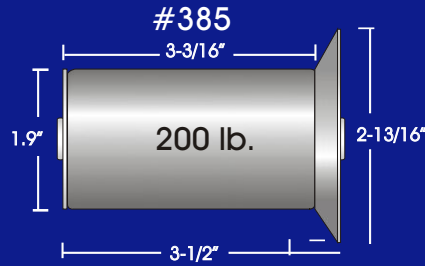

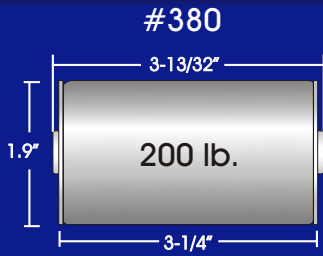

Construction

Staggered for Higher Load Capacity

Skatewheel	#45	#328	#335
Capacity	300 lb.	100 lb.	50 lb.

4" BF Steel Rollers

Flanged roller offers self-guiding

- Increased durability
- Wide rolling surface
- Steel bearing constructed

Configurations

Pushback

Pneumatic Stops

2-Rail System

3-Rail System

Storage Systems

Pallet Flow

Workstations

Bolted Ramp Stop
